

MEDIA DESIGNS

Corporate **Films**
Media Production

With a strong desire to enter the world of entrepreneurship in 1999, before the advent of start-up trends, Media Designs was started by a young visionary with numbered resources but numerous aspirations.

By starting with offering designing services, the venture embarked upon a bold journey towards providing complete branding & communication solutions in the visual arena (**Filming, Branding and Printing**). In 2024, Media Designs completed 25 years of successful operation with unwavering focus, self-motivation and unique creative drive to serve its customers in the most difficult situation, even during the lockdown.

At Media Designs, our corporate philosophy is to have limited customers to provide them with unlimited services. That is why today, in this demanding industry, we have established a significant stance in providing diverse communication tools with on-time delivery for various industries spreading across India, South East Asia and the Middle East.
